UpToDate®

LANDSPÍTALI

Important!

Maintain your account active: Log into UpToDate with your username and password at least 1x in every three months from a computer within the hospital.

Re-verification

Some weeks ago we informed about UpToDate Anywhere and how to get access to the FREE mobile apps. To maintain your account active, you will need to login to UpToDate at least 1x in every three months with your username and password, from WITHIN Landspitali. Simply go from any computer in Landspitali to www.uptodate.com/online, and click Login then enter your username and password.

For more information on the registration process, watch the video or consult the tip sheet.

UpToDate

Landspitali utilises UpToDate, the world-reknowned clinical decision support tool, already for many years in order to find answers on clinical questions. In May 2014 the company Wolters Kluwer launched the much-anticipated mobile access to UpToDate finally in Europe. Landspitali was the first hospital in Iceland to offer the new service to their medical staff.

With UpToDate you have FREE access to more than 10,500 topics covering more than 22 specialities. Information within UpToDate is evidence-based, written by the worlds leading experts in their fields, and provides quick answers to help you provide better carefor your patients.In addition, you have free access to more than 28,000 graphics and multi media, 160 medical calculators, continuous updates in each specialty, and a drug database containing guidance on more than 5400 adult, pediatric and international drugs.
